

# What is a Chartered Accountant and what makes them different?

A Chartered Accountant has completed one of the most thorough educational training qualifications on offer; their experience sets them apart.

Chartered Accountants have:

- Highly developed communication and technical skills
- Dedication to completing work to a high standard
- Commitment to self improvement and development
- Ambition to achieve the best for their clients.

The Chartered Accounting qualification equips Chartered Accountants with the perfect blend of learned principles and practical application. On completion, Chartered Accountants are already at an advantage against other accounting qualifications.

As a Chartered Accountant (and as part of the Global Accounting Alliance), Chartered Accountants can work anywhere in the world in whatever industry they choose.

The [Chartered Accountants Program](#) is recognised and accredited by higher educational authorities with subject exemptions for future study. It's a great stepping-stone for senior management.

As a Chartered Accountant you have achieved your qualification with one of the world's most trusted accounting brands.
